

Zukhra Abdulaeva

Quality and Project Manager for IT and E/E Systems

B.Eng. Mechanical Engineering

Quality and project manager with many years of experience, holding a German B.Eng degree and in-depth knowledge and methodological expertise in quality assurance and system integration within the automotive and IT sectors. My focused, goal-oriented approach ensures efficient project execution. I am highly ambitious and keen to help shape technological developments in an interdisciplinary environment. With a focus on the future in IT & AI, I am expanding my skills with innovative information technologies. As a diplomatic communicator, I have an excellent sense of goal-oriented communication – fluent in German and English. I am an agile and dynamic team player with strong intercultural skills.

Skills

System integration + software engineering: quality, testability, stable deployments

System integration HW/SW

Test and error management

Requirements management

Implementation of evaluation and testing processes

Project coordination & PMO support

Process management and organisation, documentation

Quality management and compliance understanding

Structured, analytical working style

IT / E&E Skills

Microsoft Office, Microsoft Windows, Mac OS X

Statistical analysis (Excel, macros), data evaluation, quality metrics

Python, JavaScript, HTML, CI/CD, React & Redux, Node.js, SQL, Django, Docker

SharePoint, Jira, RPLAN, DOORS, HP ALM QC, CAD-Tools, MatLab/Simulink, PikeTec, E-sys, SWL, Brian, Octane, Carmen, BNE, Fleem, Trace Lab, AUTOSAR, CAN, LIN, FlexRay, Ethernet

Experience

CONTINUING EDUCATION IN SOFTWARE ENGINEERING & DEVOPS 02/2024 – today

- Junior Software & DevOps Engineer with practical experience in full-stack development, deployment and automation. Experience with JavaScript, Python, React, Django, REST APIs, SQL and Git. Focus on Docker-based environments, reproducible deployments and CI/CD-related workflows

QUALITY ASSURANCE SYSTEM FUNCTIONS, IN-MOTION GMBH 04/2022 – 01/2024

- Responsible for testing and error management of HW&SW release versions of system functions on test bench vehicles
- Supported test bench vehicles by ensuring the functionality and up-to-date status of HW and SW status

EVENT MANAGEMENT, SALES ASSISTANT, CATERING, EVENTSERVICE / GVO PERSONAL GMBH / EAT FRESH GMBH, MÜNCHEN 09/2019 - 03/2022 (temporary work during the coronavirus pandemic)

- Supervised project organisation by agreeing project requirements and coordinating objectives
- Customer service, administrative support in the sales area
- Ensuring smooth service processes in the catering industry

PROJECT MANAGER, ELEKTROBIT AUTOMOTIVE GMBH 04/2018 - 08/2018 (restructuring)

Technical management of the first support team:

- Ensuring support capacity, organising on-site support and preparing quotations with the Customer Centre and Sales (integration and ticket support, customer-specific enhancements)
- Sub-project management for the development of control units
- Definition of scope of delivery, creation of reliable schedules and assurance of quality and on-time customer deliveries

Interests

Further development in the field of IT & software engineering

IT security, compliance, certification procedures

Interdisciplinary cooperation in technical evaluation environments

Cooperation and knowledge exchange

Services

Quality and process assurance

Introduction, maintenance and further development of structured testing, quality and documentation processes in IT and system projects, taking into account formal and regulatory requirements.

Structured documentation and filing concepts for auditable processes

Establishment and maintenance of consistent documentation and filing structures to support traceable testing, evaluation and quality processes. Ensuring transparency, completeness and timeliness in regulated project environments.

Efficient administrative project and process support

Structured organisation, data maintenance and administrative support for interdisciplinary teams, as well as analysis and optimisation of processes to increase efficiency, quality and traceability.

PROJECT MANAGER AND QUALITY MANAGEMENT OFFICER, BERTRANDT INGENIEURBÜRO GAIMERSHEIM GMBH
08/2011 - 06/2015

- Project management and quality management
- Creation, integration and monitoring of project plans, process flows, communication flows and communication tools
- Responsibility for requirements and test management up to product acceptance and commissioning
- Responsibility for performance and deadlines in consultation with customers
- Technical management of sub-project managers, department heads and project staff
- Internal lead auditor (ISO 9001)
- Consulting and coaching of the PMO

Voluntary work

INDEPENDENT NON-PROFIT PROJECT IN MUNICH, SABBATICAL
07/2015 – 03/2018

- Accompanied and supported refugees with post-traumatic stress disorder and sick children
- Organised, coordinated and assisted with doctor's appointments and appointments at government offices and authorities

SUCCESS: This sabbatical provided me with valuable life experience, shaped my independent, goal-oriented approach to work and increased my resilience.

University education

B. ENG. MECHANICAL ENGINEERING WILHELM BÜCHNER HOCHSCHULE, PFUNGSTADT
11/2011 - 02/2014

- Part-time degree in mechanical engineering

Further training

FULL STACK BOOTCAMP WEB DEVELOPMENT (FRONTEND & BACKEND) CONSTRUCTOR ACADEMIE
08/2024 - 11/2024

GPM PROJECT (COLLECTIVE MIND METHOD) GMP
09/2013

QM-AUDITOR ISO 9001 (IHK) IHK
07/2011
